

Classroom Barriers

Portable classroom barriers provide students and teachers an added layer of protection from COVID-19 and other virus exposures. Our barriers help provide physical separation in smaller areas to help maintain social distance and offer a durable, flexible design and clear view that won't impede vision.

Your Protection Is Our Priority

- Provides added protection from respiratory droplets for both students and teachers
- Clear, lightweight, impact-resistant polycarbonate for all types of desk and tabletop use
- Freestanding design requires no tools for setup; stands upright with or without adhesive channel strips (included)
- Hinged barriers fold flat for easy storage when not in use
